

Panduan Instalasi Lectora

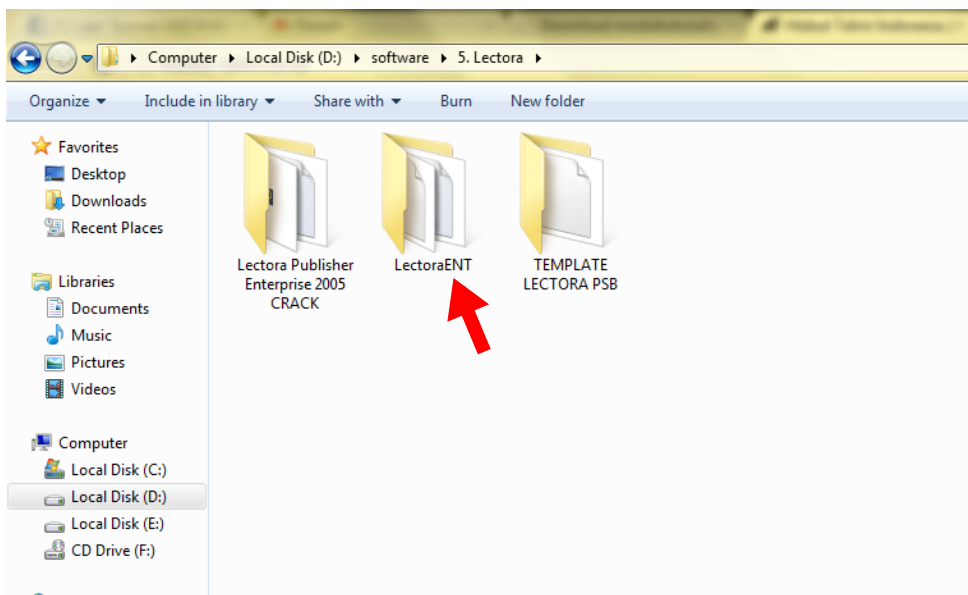

Lectora adalah *tool* (alat) pengembangan belajar elektronik (e-learning), juga dikenal sebagai perangkat lunak authoring, dikembangkan oleh Perusahaan Trivantis. Lectora digunakan untuk membuat kursus pelatihan online, penilaian, dan presentasi.

Lectora yang kita gunakan saat ini adalah Lectora Enterprise 2005 edisi demo. Namun, pada folder instalasi sudah tersedia *crack* yang bisa membuat software ini *full version*.

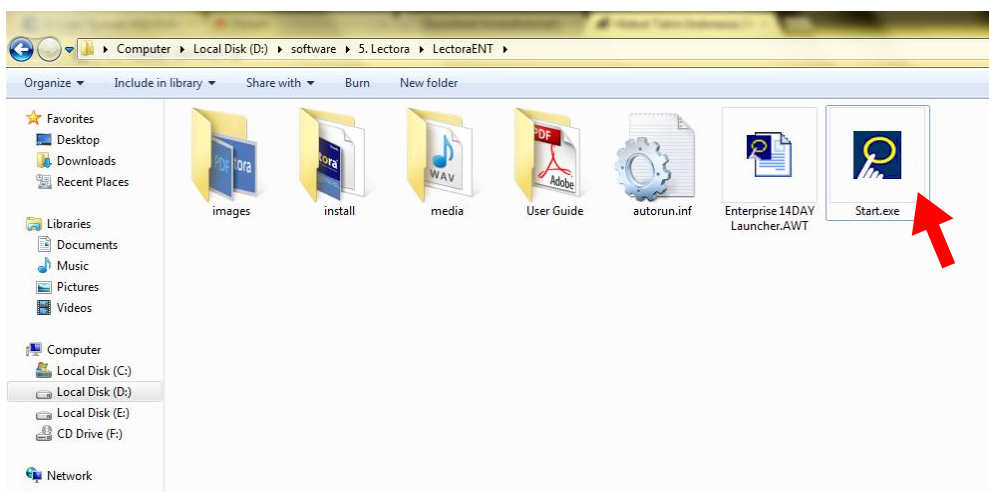

Langkah-langkah instalasi lectora:

Sebelum proses instalasi dimulai, anti virus yang berjalan di *system* computer/laptop harus dinon-aktifkan terlebih dahulu.

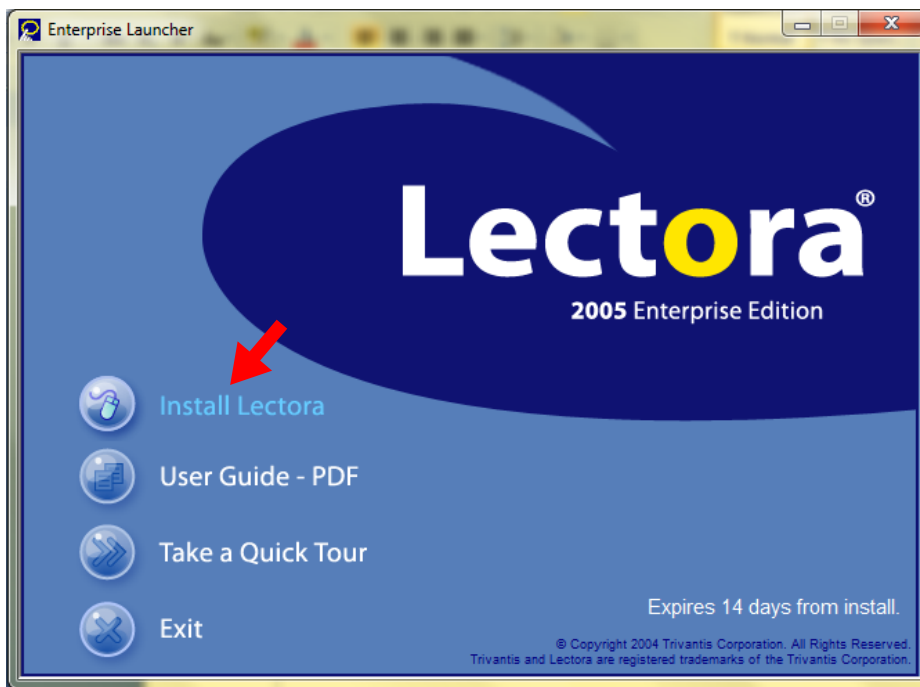

1. buka folder "LectoraENT"

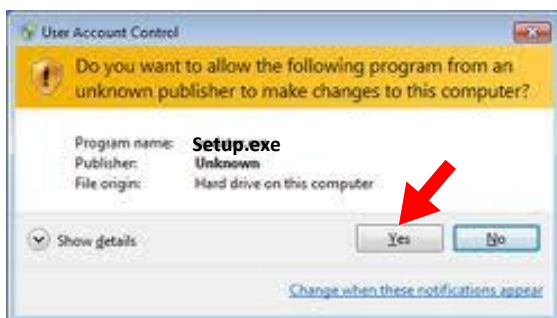

2. Klik ganda pada file "Start.exe"

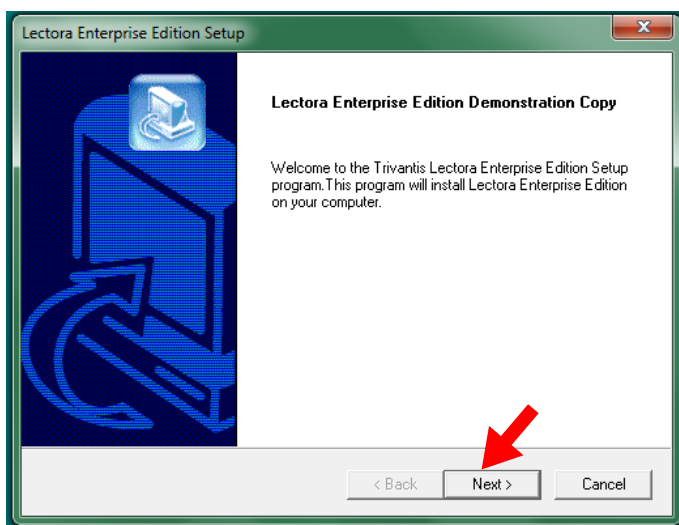

3. Klik pada "Install Lectora"

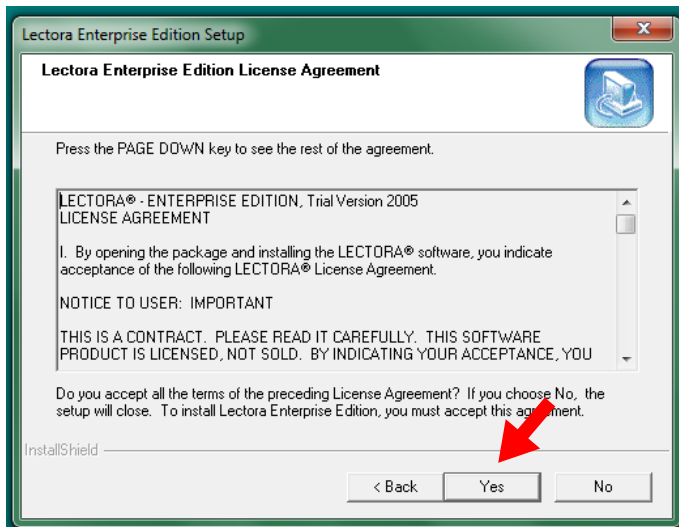

4. Jika muncul dialog box User Account Control maka pilih "yes"

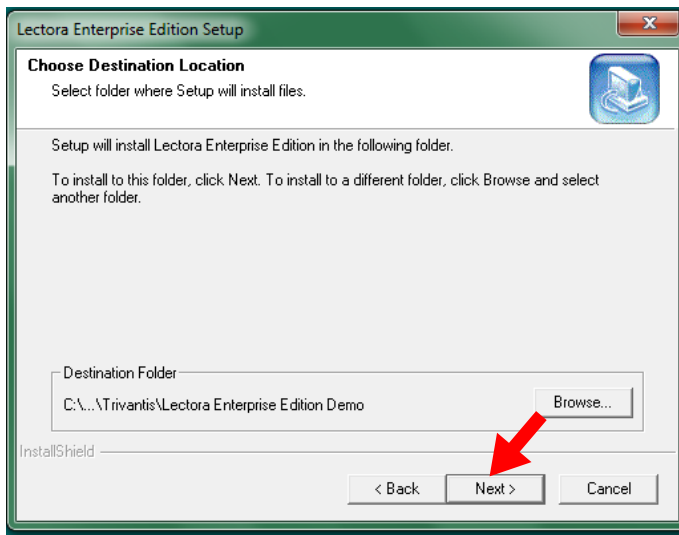

5. Klik "Next"

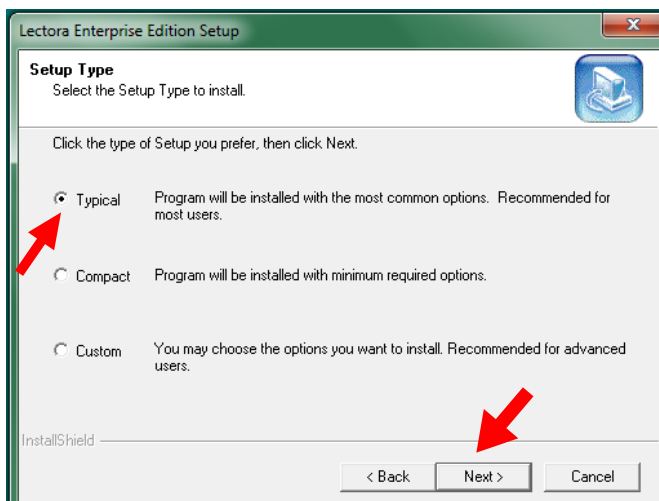

6. Klik "yes"

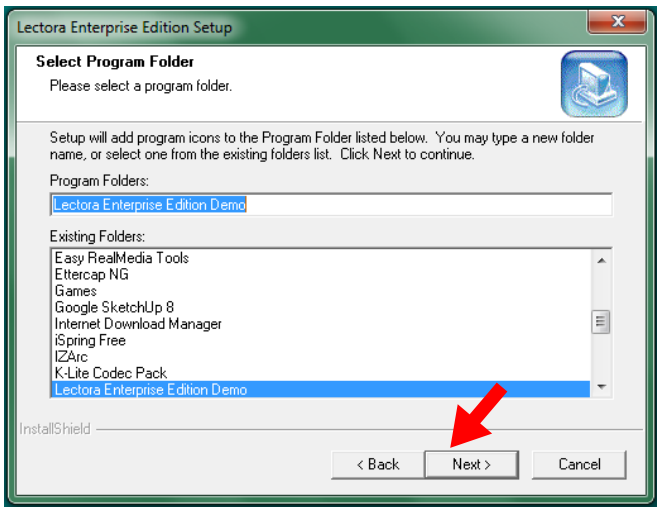

7. Klik "Next"

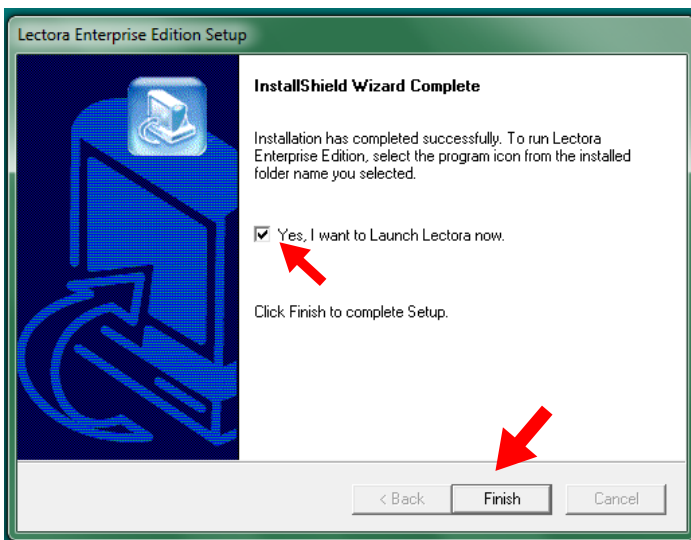

8. Pilih "Typical" kemudian klik "Next"

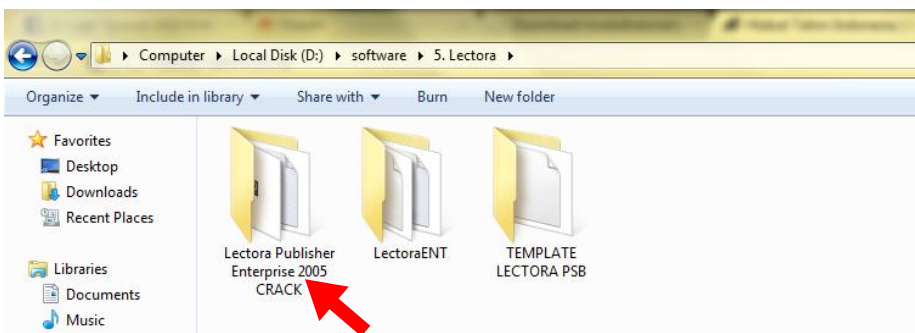

9. Klik "Next"

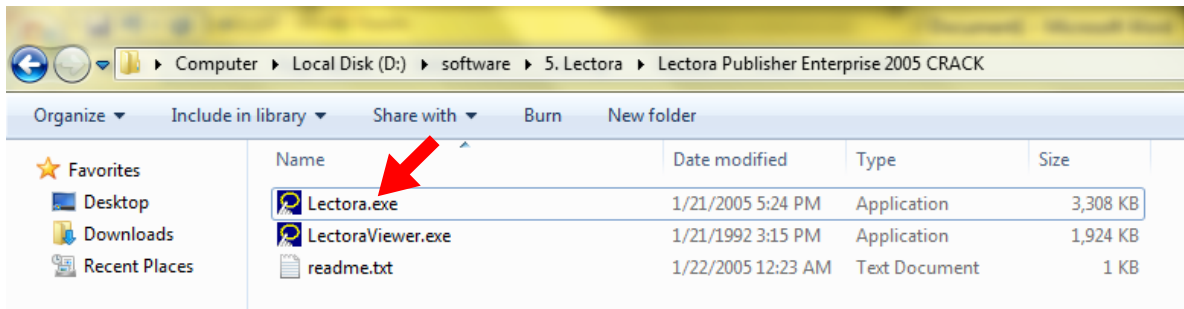

10. Proses instalasi akan berjalan. Setelah selesai, hilangkan *checkbox* pada tulisan "Yes, I want to launch Lectora now", kemudian klik "Finish".

11. Selanjutnya kembali ke folder "Lectora". Buka folder "Lectora Publisher Enterprise 2005 CRACK"

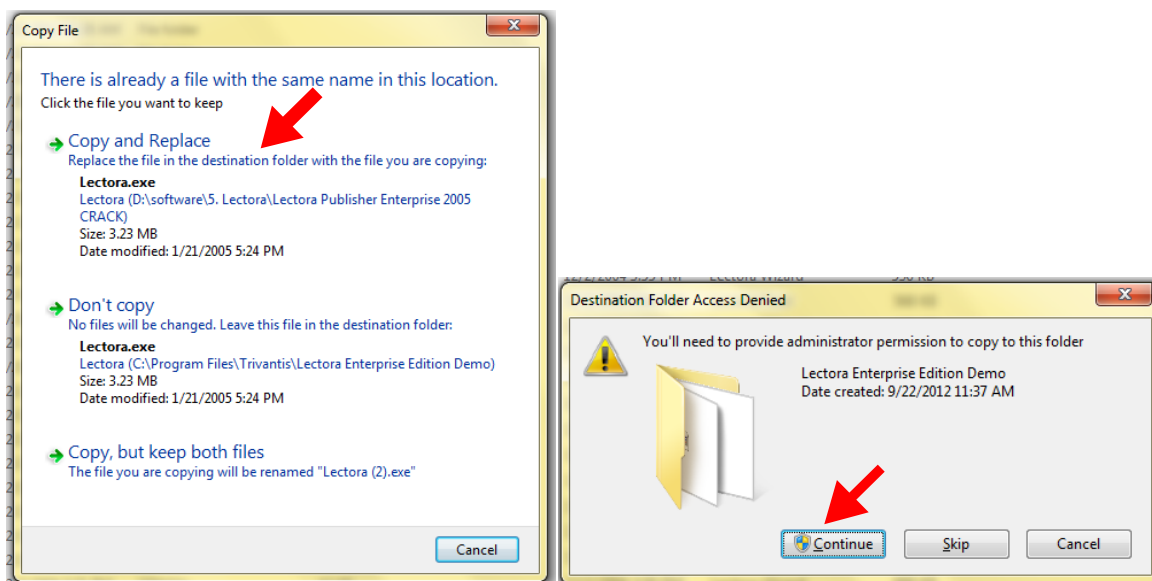

12. Copy file "Lectora.exe"

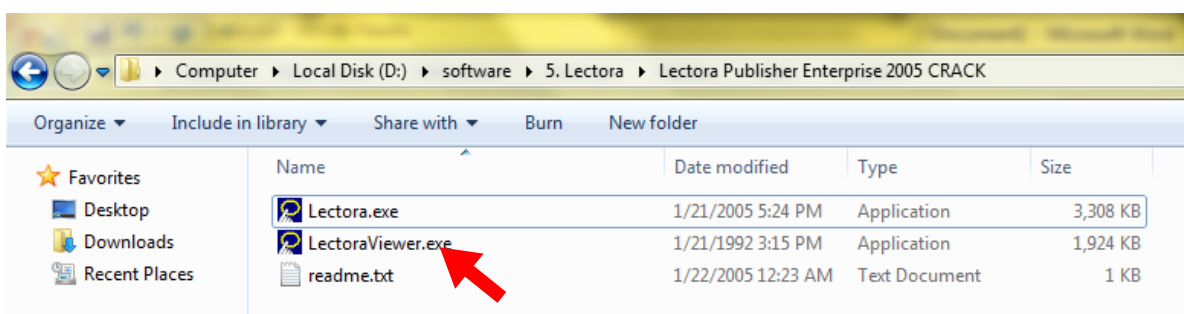

13. kemudian paste file ke directory "C:\Program Files\Trivantis\Lectora Enterprise Edition Demo"

Akan muncul dialog box "Copy file", pilih "Copy and Replace" kemudian "Continue".

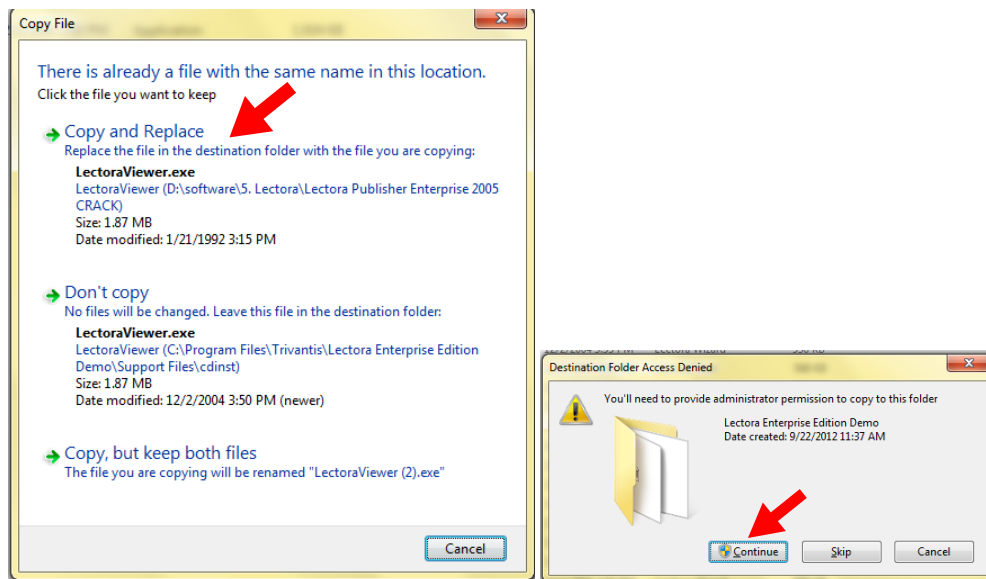

13. Copy file "LectoraViewer.exe"

kemudian paste file ke directory "C:\Program Files\Trivantis\Lectora Enterprise Edition Demo\Support Files\cdinst".

Akan muncul dialog box "Copy file", pilih "Copy and Replace" kemudian "Continue".

14. Selesai.
